

Application for assistance with Fees

Creek Street Christian College is an independent school. Independent schools receive Government funding, however the funding is considerably less than the amount received by Government schools. To make up for this gap, independent schools charge fees for their students.

It is Creek Street Christian College's policy to set its fees at a level that is affordable to most families within our community while also providing sufficient resources and quality staff to provide the excellent level of education Creek Street Christian College is known for.

As a Christian community, the College believes in supporting its families and offers discounts for second and subsequent children within a family. If families are experiencing financial difficulties, further assistance may be applied for by completing this form. The amount of further financial assistance available will be at the discretion of the College's Senior Management.
